It takes from 25 to 30 percent of a family s yearly after tax earnings to pay for a single child s college education. Utilizing their access to college counseling, admissions, and financial aid professionals at colleges and universities across the country, this father and son team have developed a program to make paying for college manageable. They enlighten, motivate, and encourage students and their parents to follow a set of 10 principles designed to help families get a handle on saving and financing a college education. Their mission is to reassure and to help families of every income level and at every stage of preparation to plan a strategy for paying for college.
