Brand New Book ***** Print on Demand *****.You ve heard the question a hundred times: Is the glass half empty or half full? If we are in negativity mode we see the glass as half empty. Anyone can see it s half empty. When we are feeling negative, we focus on what is missing and lament the lack of water in the glass. When we are feeling more positive, we see the glass as half full. It is filled the rest of the way with something just as valuable, and even more immediately necessary to life, than water. In truth, the glass is completely full. The glass is half full of water and filled the rest of the way and to overflowing with precious air. What if...
