Not illustrated. 1916 Excerpt: . . . 2Jan, and the th root of the general term of this last series, or Ran, approaches zero as n increases indefinitely. t Therefore we can always choose the integer v so that the infinite product Ft(z) will be absolutely and uniformly convergent in the circle of radius R. Such a product can be replaced by the sum of a uniformly convergent series (176, 2d ed.) whose terms are all analytic. Hence the product Ft(z) is itself an analytic function within this circle (39). Multiplying Ft(z) by the product Fz), which contains only a finite number of analytic factors, we see that the infinite product is itself absolutely and uniformly convergent in the interior of the circle C with the radius R, and represents an analytic function within this circle. Since the radius R can be chosen arbitrarily, and since For example, let a...
